Memberships

All memberships at MASA will now use a year round price structure. This means that when you take out your membership the expiration date will be one year from the day that you took it out.

If you have a current membership which was taken out under our old prorated system your expiration date will not change. All current memberships will expire on 9/30/2018.

This first change took place on 2/1/18. Our second phase change took place on 4/23/18. Membership rate increase will take place on 1/1/19 this year to allow our existing members to renew at last year's rate.

Payment in thirds is changing to payment in quarters – These payments will be due every three months. Also, a payment plan will now be the base price for the membership plus one month. So the way that we figure the payment in quarters price is: The base price divided by 12. That number is added to the base price and then divided by 4 and rounded to the nearest dollar. Please see the membership page of our website for other contract terms set in place for payment plans.
