Excused: Mari Faber, Denise Gage, Isadore Hackle, Isabelle Kochiu, Mandy Krautkramer, Adrienne Reed

Un-Excused: Joanna Grill,

### **Desk**

- Party Packages – We need more detail and they need to be left on Jennifer's desk after they are filled out and booked so that if additional staff is needed she can arrange that. Please don't just put them right into the book. Also, please note the increase in prices.

### **Guards**

- Flipper Bucket – We will be getting a container to raise the equipment off of the ground, so that members don't need to use the hose all the time. The morning guard will fill the container with fresh water and the closing guard will dump it out and lean in on the wall to dry overnight.
- Closing guard – On disinfecting nights, walk into both shower rooms and spray the shower walls and floors with the WysiWash.

### **Lessons**

- Whales Tales Folder – This is found in the equipment room for use with safety topics. You can use it to show pictures and encourage discussion of topics.
- Recap of the last 4 weeks of swim lessons – We discussed how we can do better, what we have done that may not have been of value to the parents and students in our classes and if we have engaged the students if they demonstrate poor skills at 5, 10 or 15 yards.

### **All**

- Shift Changes – You may be scheduled on the hour, but it is proper to arrive 5 minutes early to communicate with whoever you are replacing.

We did our monthly drills. If you did not complete them at the meeting please do it on your own time with a partner or two.

We worked in teams of 3...

Drill #1 – Passive submerged, removal with the backboard.

Drill #2 – Deep spinal, swim to shallow and have a secondary place the tube.

Drill #3 – Double drowning, remove swimmers, reflect on situation and make suggestions.
